

Hello everybody,

My name is Marilou . I spent one month in Australia.

First I spent five days in Western Australia, I went rock climbing, it was quite difficult at first but the view was spectacular. The rest of the time I went surfing, I love that.

Then in South Australia for four days I went rafting and canoeing, I've already done these activities in Spain but here it is very different. I have also seen a group of kangaroos it was really exciting.

After that I went to Victoria I only had three days to visit so we went to visit Melbourne. I also observed platypus, this species looks like it comes from the dinosaurs times. It's really interesting.

Then it was time to go to New South Wales for three days (where I still am). Sydney was incredible even if one of my friends was really unlucky and got bitten by a redback spider, we were really worried but she is fine now. We visited the Opera House, this building is giant. Tomorrow we are going on a hike in the blue mountains.

After that we will take one week in Queensland because we are all pretty tired but we have to go snorkeling on the Great Barrier Reef, surfing, admire the waterfalls but I am thinking about going bungee jumping it is something I have always wanted to do even if I am anxious about it.

Then for Northern Territory we are going to stay four days, I have already booked a hot-air-balloon ride so we can see crocodiles and Ayers Rock. After that we will take two days so we can enjoy before heading back home.

So this was my trip to Australia.
