

# **My travel in Australia**

**Two weeks ago I landed in Australia for the first time and it's really beautiful!**

This is the beach where I swim after going to the hotel.

**First I visited Sydney Opera House:**

I could see the interior and it is really impressive.

**After, one week ago, I dove into the Great Barrier Reef and saw lots of exotic fish and turtles.**

I have taken some photos with my waterproof camera.

**Less than three days ago, I had the chance to see a family of koalas.**

And I was able, in a center, to give them the feeding-bottle

They are the cutest in the world !

**I was still afraid because of a tarantula that came on the table of my balcony**

Yuck! It is really ugly...

**I bought a beautiful hat and then I lost it**

It's really smart -\_-

**Finally I am in my hotel room and I have a great view**

It's a very beautiful view

I don't have that in France

**Tomorrow I'm thinking of going to taste the famous Meat Pie in a restaurant nearby**

Because all these activities made me hungry

**I still could see three signs that intrigued me**

It is not in France that I will see these signs

**However never in my life will I go cage diving with white sharks**

If I do that, I die inside because I hate sharks.

**Finally the next two weeks left i will spend them with my family, to enjoy the beach and the culture of Australia**

**Here it was my travel book, see you soon**
