## My trip in Australia

Hello, I went Australia for three weeks. I have left one week in Australia.

Australia is a beautiful country. There are a lot spots and many cities.

My first spot was in Tasmania. I have seen a Tasmanian Devil, a waterfall and I visited Hobart for three days later. Then I went in Victoria. In a first time I visited Melbourne, then, I did ski, I played tennis but I didn't have seen a platypus. Then I went New South Wales. In first time I visited Camberra a capital city of Australia. In second time I visited Sydney the largest city and I visited the Opera House. For my last day in New South Wales, I went hiking a blue mountains.

After I went to Queensland. In a first time, I did snorkling on the Great Barrier Reef. It's very very beautiful spot. Then, I went visited Port douglas, Cairns and then see a koala and I surfed in Fraser Island. My last week I visit South Australia. I have not do bungee-jumping, I haven't went spot X, look a platypus and I have not ride a horse. My trip in Australia is a better experience and my better trip of my life.
