

Hey!

I am in Australia since two weeks but I did a lot of activities and saw beautiful scenery.

My travel started in Queensland. I did snorkling on the great barrier reef and watched bigs waterfalls. It was a good experience.

After this, I went to New South Wales. I went hiking in the blue montains, It was very scary because I am afraid heights but the vue was beautiful. I visited Sydney, it is a big and interesting city, I would like to live in this city.

I have already gone to Victoria, too. I skied, it was hard because I'm not very good at skiing but it was very funny. I have also seen platypus, it's a strange animal.

I have already spent two weeks in Australia, I am loving every day and I think the next days will be even funnyer.

I have not tried yet hot-air balloon. I think that will be my favourite activity.
